Profile

Cognitive neuroscientist and Principal Investigator leading a funded research project on bilingualism and cognitive control. Experienced educator with expertise in interpreting, accessibility, and inclusive design. Skilled in content development, neuroimaging, and multilingual user-centered communication.

Skills

Leadership Project leadership, strategic planning (PI, grant-funded)

Content Educational and multilingual content design, accessibility

Methods fMRI, behavioral experiments, eye tracking, cognitive load

Tech Data analysis in R; Python

Teaching University-level course development, inclusive pedagogy

Languages English (fluent), Swedish (fluent), Polish (native), Hebrew (fluent), Spanish (good)

Experience

- 2025–present **Postdoctoral Researcher & PI**, *Stockholm University Brain Imaging Centre*, Sweden
Lead funded project on bilingual cognitive control. Designed fMRI and behavioral experiments with accessible stimuli. Managed interdisciplinary teams and mentored junior researchers.
- 2024–2025 **Senior Lecturer in Interpreting**, *Stockholm University*, Sweden
Designed and taught courses in interpreting and ethics. Created accessible materials for cognitively diverse learners. Supervised BA theses and developed research-based curriculum content.
- 2024 **Research Assistant in Neuroscience**, *Stockholm University*
Responsible for support on experimental design and data analysis, with focus on magnetic resonance imaging of the human brain, pupillometry and galvanic skin response.

2017–2023 **PhD Researcher, Stockholm University**

Led experimental studies using eye tracking to examine cognitive load in interpreters. Published in peer-reviewed journals and received national and international recognition.

2015–2016 **Information Officer, Foreign Embassy (confidential), Stockholm**

Developed and disseminated multilingual public information materials in a diplomatic context. Supported media relations, community engagement, and intercultural communication with a focus on clarity and accessibility.

2012–2017 **Public Service Interpreter (Freelance), Sweden**

Provided interpreting in healthcare, legal, and asylum settings. Facilitated critical communication for users with limited Swedish proficiency in high-stakes, multilingual contexts.

Education

2023 **PhD, Cognitive Translation Studies, Linguistics, Stockholm University**

Thesis: *Cognitive Load in Dialogue Interpreting: Experience and Directionality*

Leaves of Absence

2020 Medical leave

2018 Parental leave

Selected Publications

2024 Adler, A. (2024). Effects of experience and directionality on cognitive load in dialogue interpreting. *Translation, Cognition & Behavior*.

2023 Adler, A. (2023). Cognitive Load in Dialogue Interpreting. PhD Dissertation, Stockholm University.
